Okinawa, OKHI-90 'The Responsible Choice'

We recently launched our most awaited electric scooter, the OKHI-90. Touted as "The Responsible Choice", OKHI-90 is the perfect amalgamation of a Motorcycle and a scooter that caters to the varied needs of city dwellers. The spacious ergonomics of the scooter, which include wide and gripped tyres and a large comfortable seat, make it ideal for Indian families. The 16" stylish aluminium alloy wheels not only add to the aesthetic appeal but also enhance the overall riding experience, especially on bumpy roads, making it the ideal long-distance two-wheeler. The OKHI-90 has a knob-style automatic keyless start for quick and easy start-up and it got charged 80 per cent in one hour.

With unmatched strength and endurance, the OKHI-90 totally stands out from the current lineup of electric vehicles in the country and will give the ICE counterparts a run for their money. OKHI-90 comes equipped with the best of features, including in-built navigation, Digitally informative Speedometer, Bluetooth connectivity, mobile charging USB port, Luggage box light, geo-fencing, secure parking, etc. The smart electric scooter alerts the rider with battery info, speed alerts, calls and notification alerts, as well as insurance and maintenance reminders. The user can download the Okinawa Connect App that comes loaded with a plethora of features to enhance the overall ownership experience. The scooter also offers a load capacity of 250Kg of weight. That's not all we as a responsible brand customer safety is of paramount importance to us.

We understand EV is at a very nascent stage, and our customers should have a detailed understanding of the Vehicle and its usage. We being a responsible brand, rigorously guide our users to be very vigilant and careful when it comes to taking care of electric vehicles and as well as batteries. Here are a few guidelines to EV users:

continue...

OKHI-90 #The**Responsible**Choice

Guidelines for using EV Batteries

- Only OEM-specified chargers for specific battery types should be used. Do not interchange or use any other non-genuine charger.
- Store your batteries at room temperature.
- High Pressure water cleaning is Prohibited .
- Please do not charge the batteries within 1 hour after use.
- If the battery becomes hot, emits an odour, deforms, or exhibits any other abnormal behavior while in use, please stop all operations immediately, isolate and store it separately, and notify the appropriate service engineer.
- If you discover that the battery casing has been damaged or that there has been water intrusion, immediately isolate and store it separately, and notify your dealer.
- If the battery is not used for an extended period of time (more than one month), please remove it and charge it to a half-saturated state (after discharging, charge with the charger for 1.5 to 2 hours), then store it in a cool and dry place (the optimal temperature range is 5 °C to 25 °C), and charge it for 1.0 hour every three months.
- Do not leave the battery at 5% power for an extended period of time.
- Do not charge the battery for more than 2-3 hours at a time .
- Charge the battery with a 240-Volt, 15-amp socket with proper wiring and Earthing connections
- Charge in a well-ventilated area.
- Store the battery and charger in a clean, dry, and ventilated location, away from corrosive substances, at least 2 metres away from fire and heat sources, away from flammable substances, and disconnect the charger from the battery.
- Avoid charging in humid conditions and avoid using any type of battery that contains water.
- Do not charge the battery in Humid conditions . Wet Area & direct Sunlight
- While taking out the battery and putting it back make sure that the cable connection is tight and not loose .
- There should not be any external damage on the Battery case .

Charger Health Tips

- Ensure that the charger plug on both sides is not loose and there is no sparking / heating of the mains socket.
- While charging – first plug the battery side, then the AC side , post charging – first unplug the AC side then the battery side
- Ensure ignition switch is in OFF position when your Electric 2- Wheeler is being charged

A photograph of a launch event for the Okinawa EV scooter. A man and a woman are standing next to a red scooter on a stage. The background features the Okinawa logo and the text 'Power the Change'. A large circular graphic on the left side of the image contains the Indian national flag and the text 'India's First Electric Scooter with Biggest Wheel Size.' Below the photograph, a red banner displays the text 'OKHi-90 #TheResponsibleChoice'.

Okinawa Okhi 90 launched, prices start at ₹1.21 lakhs

Okinawa Scooters have launched the Okhi 90, their attempt at moving the company in a new direction. The new flagship electric scooter gets 160km of claimed range in sport mode and 16-inch wheels. The scooter is priced at ₹1.21 lakhs across India, after FAME subsidies are applied with a further reduction in prices after state-wise subsidies come into effect.

Okinawa Okhi 90 इलेक्ट्रिक स्कूटर भारतात लॉन्च; एका चार्जवर चालते 160 km

By सकाळ डिजिटल टीम

Published on : 24 March, 2022, 08:08 PM

सध्या देशात इलेक्ट्रिक वाहनांची मागणी झपाट्याने वाढत आहे. अनेक वाहन कंपन्या त्यांचे इलेक्ट्रिक स्कूटर बाजारात घेऊन येत आहेत यातच Okinawa या कंपनीने आपली नवीन इलेक्ट्रिक स्कूटर Okinawa Okhi 90 भारतात लॉन्च केली आहे.

Okinawa on a path of revolution through its , all new service initiative, **Mileage Ka Maharaja**

A Campaign By the Dealers, Through the Dealers, **BY EMPOWERING OUR CUSTOMERS !**

We truly and heartily appreciate our dealers for organizing and participating in such wonderful rallies for Mileage Ka Maharaja .It is an exceptional initiative that is being accomplished by our dealers . This reinforces the trust and belief our dealers and customers have in Okinawa . Their efforts contribute substantially to the major aspect that we as a company are aligned with, building awareness and creating responsiveness towards our environment through Electric – 2 Wheelers and what best than getting it done through our own customers .This initiative has already set a standard for all our dealers that we as a company stand for sustainability in all sense . Okinawa truly appreciates such commendable initiatives.

It gives us a sense of pride and gratification to witness such a grandeur of the campaigns Mileage Ka Maharaja being carried out in all parts of India by our dealers, It was just a thought in our minds , But now it has become a revolution in creating awareness about Electric – 2 – Wheelers in the country .

Our Proud Partner

The launch event of Okhi 90 was fabulous!

It was executed & presented very nicely.

Mrs & Mr Sharma, two pleasing personalities, have their vision very straight & we are happy to be their dealer partners to hold their hands to achieve the same.

Okhi-90 is a one of a kind scooter and it seems that it will break all records in the market. Looking forward to be great partners with Okinawa now & always.

Celebrating WOMEN'S DAY

The day honors women's and girls' cultural, political, and socioeconomic achievements. Every day, women are breaking down barriers and doing the seemingly impossible tasks with great ease and comfort. There is nothing they can't accomplish. Women, on the other hand, must be aware of their rights. What better day than International Women's Day to do so? After all, knowing your rights gives you a sense of strength and assurance.

We at OKINAWA

Celebrate Women's Achievements

We've come a long way from nonvoters, quiet, submissive wives to powerful, self-sufficient women who make changes in the world so other women can enjoy the same opportunities.

Support a Gender-Equal World

Make all industries a women's industry too: There are still in 2022 lots of business industries in which women do not have the same opportunities as men like in technological businesses, sports teams, financial business, and more. To achieve the same career opportunities and be more visible to the world, women all around the world have fought for workplace equality.

Raise Awareness

It's hard to hide under a rock in 2022, but there are still a few who are not aware of the issues women are facing. For this, is very important that we share the correct information. Remember knowledge is power!

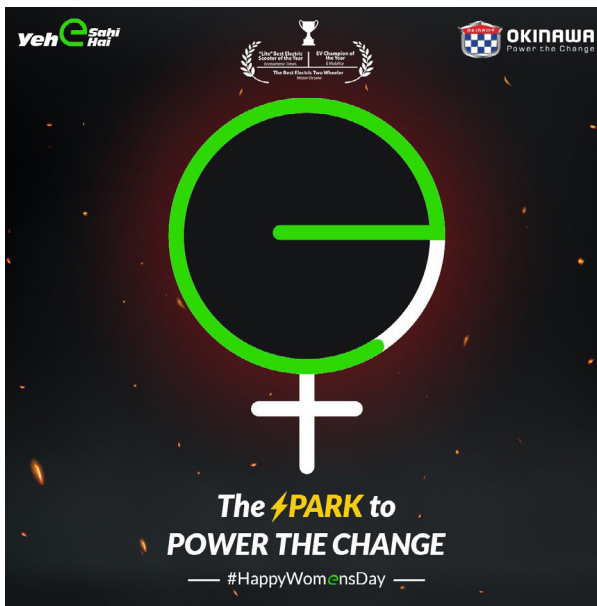

Rally by Women at Sangli
